I'm excited to introduce myself as a current MCA Student eager to begin my career in the IT field. With my studies, I've developed skills in software development, Web development, Database management. I am passionate about technology and how it can solve real-world problems. and I'm always eager to learn more. I'm currently seeking opportunities where I can apply my knowledge and grow as a professional.

Simplilearn

## PROJECTS

### MENU ASSIST

Menu Assist is an innovative electronic menu system designed for restaurants to streamline the ordering process and enhance customer experience. Instead of traditional paper menus, customers use tablets to browse menu items with images and place orders directly from their device. These orders are instantly sent to the kitchen, ensuring quick service and reducing wait times.
